 [github.com/Nipun746](https://github.com/Nipun746)

## EDUCATION

**Bachelor's of Computer Applications Hons.**  
*Maharaja Surajmal Institute (GGSIPU)*

08/2024 – Present

**BS in Data Science and Applications**  
*Indian Institute Of Technology Madras*

05/2024 – Present

## PROFESSIONAL EXPERIENCE

**Data Analytics Virtual Intern**  
*Deloitte (via Forage)*

06/2026 – 06/2026

- Cleaned, transformed, and prepared raw datasets using Excel and Tableau data preparation techniques to ensure data accuracy and consistency for reporting.
- Designed and developed interactive **Tableau dashboards** to visualize key business metrics, enabling stakeholders to monitor performance and make informed decisions.
- Conducted exploratory data analysis (EDA) to identify trends, patterns, outliers, and actionable insights from client datasets.
- Developed data-driven recommendations and presented findings through Tableau visualizations and reports, simulating real-world client consulting engagements.

## PROJECTS

**F1 Race Strategy Predictor**  
*~In Progress*

Using **Python, Pandas, Scikit-learn, and FastF1 API** to analyze race telemetry, lap times, tire degradation, and circuit data. Currently developing and training ML models with feature engineering techniques to predict optimal pit-stop strategies and evaluate race strategy performance.

**Car Price Predictor | Machine Learning Project**

Built a car price prediction web app using **Python, Flask, HTML/CSS, and Scikit-learn** that estimates resale prices based on car details like company, model, year, fuel type, and kilometers driven.

**PulseTech | Web Scraping & News Automation Project**

Built a tech news website using **PHP, MySQL, HTML/CSS, and JavaScript** that scrapes content from given URLs and automatically publishes formatted articles using predefined templates.

**Personal Portfolio Website**

Building and deploying a responsive portfolio website using **Emergent, HTML, CSS, JavaScript, and GitHub** to showcase projects, technical skills, and achievements. Implementing modern UI design, deployment workflows, and prompt-engineering techniques to accelerate development and feature creation.

## SKILLS

**Languages**

Python · SQL · C Programming · Java · HTML · CSS · Javascript · PHP

**ML and Data Science**

Pandas · Numpy · Scikit-Learn · Matplotlib · Machine Learning · Exploratory Data Analysis

**Visualization**

Tableau · Power BI (learning) · Matplotlib · Data Storytelling

**Tools & Platforms**

MS Excel · Google Sheets · Git & GitHub · Jupyter · Google Colab

**Soft Skills**

Communication · Problem Solving · Teamwork · Adaptability · Fast Learner

**Prompt Engineering**

## INTERESTS

Art & Design | Strategy | Logic Puzzles | Problem Solving
